

Net2 Entry

A simple door entry system for
your building

Smart audio/video door entry system
in full colour

Net2 Entry

Net2 Entry is a simple security solution that allows you to identify a visitor before they are granted entry. Once you have recognised the visitor via the full colour, smart audio/video monitor, you can grant or deny access as appropriate. You can unlock the external doors to your building by simply pressing a button on your touchscreen monitor.

Convenient and Secure

- Grant visitor access at the touch of a button
- Unlock main doors from the comfort of your home or office
- See and hear who is outside before you open the door
- Use the video monitor to look and see who is visiting at any time
- Works with the UK's leading access control system for added security

Net2 Entry is easy to use and comes in a stylish, discreet design, offering a flexible and high security solution that suits a range of environments.
